### Application for Reduced Lunch

Sully Christian School no longer participates in the National School Lunch Program (NSLP), a federally assisted meal program. We have determined that by removing ourselves from the NSLP, Sully Christian School is able to offer students the same nutritious meals with the flexibility of sourcing our fruits, vegetables, and meats locally. With our withdrawal from the program, Sully Christian School no longer receives government subsidies for our food purchases or reimbursement for free and reduced lunches. However, as a school, we will continue to offer lunches at a reduced rate to families that meet the income qualifications listed below.

Families at Sully Christian School are eligible for lunch at a reduced cost if income, as found on line 6 of your IRS 1040 for the most recent tax year is not more than two times the poverty rate. Below are the qualifying income levels.
